MIAA Overtime Procedure Policy

All Games Ending in Ties During Regular Play- Overtime Procedure for all Divisions (IA, I, II, III), Boys & Girls in all games except the State Finals.

In case of a tie score at the end of the third period, if overtime is played, there shall be a three-minute intermission, ends shall not be changed, and play shall be continued for not more than eight minutes. Teams shall remain in the bench area between the end of the third period and the beginning of the overtime period. The team that scores first wins, and the game is ended. (National Federation Rule, Section 38, Art.1)

If tied at the end of the 8 minute overtime then will be a shootout to resolve the winner (team to move on in Tournament Play).

Shootout Procedure

If no winner is still determined, then the teams will enter a shootout.

In Round One of the shootout, the coaches will submit, in the order that the players will shoot, a list of 5 players who will shoot alternating in a penalty shot situation. At the end of Round One, the team with the most goals shall be declared the winner of the game. If at the end of Round One, the score is tied, the teams will continue on in the shootout. If at any point in Round One of the shootout, a team is leading the shootout by more goals than the opposition has shooters remaining, the shootout is over and the team will be declared the winner.

In Round Two, the coaches will submit, in the order that the players will shoot, a list of 5 different players than those who participated in Round One. These players will shoot in an alternating penalty shot situation in a sudden victory format.

In the shootout, the higher seed will have the option of shooting first or second. This will remain in effect for the entire shootout process.

Ice making policy will be determined by the Hockey Committee.

The winning team, for tie-breaking purposes, will be awarded a one-goal victory.

This overtime policy could be adopted for all MIAA Ice Hockey Tournament games.
